## Introduction

Lottery wheels are one of the most effective systems to guarantee yourself a winner in the lottery. In short, lottery wheels are about using certain numbers and selecting lottery combinations based that can guarantee yourself a winner if those numbers appear.

Now let me just state that lottery wheels is not the only way to win in the lottery. Lottery wheeling is one effective strategy to win more in the lotto games.

In my other lottery courses, I show you other proven and tested strategies that are not shown here. Again, this course is strictly about lottery wheels.

If you want to check out my other proven & tested strategies to win in all the lotto games, then check out my other courses available in the “Recommended Resources” on the bottom of this course.

For this lottery wheeling course, you will learn lottery wheels for all the lotto games including the:

- Pick 3 lottery
- Pick 4 lottery
- Pick 5 lottery
- Pick 6 lottery
- Multi-state pick 6 lottery
- Pick 7 lottery

## Lottery Wheel System – Ace Lee

---

There are hundreds of lottery wheels out there but I have noticed that most lotto wheels require you to spend too much money. Some require you to buy hundreds or even thousands of tickets to have a chance to win the big jackpot prize.

I just want to assure you that this lottery wheel system is about helping you win a REALISTIC prize. That is why all my lottery wheels are based on spending only around 5, 10, or 20 tickets to win a realistic amount of prize.

With exception to the pick 3 and pick 4 lottery, the other big lotto games require you to buy hundreds (and sometimes thousands) to have a chance to hit the jackpot. I am not here to make you spend 1000 tickets. That type of wheeling is not realistic for the average player.

That is why I have strictly focused on creating lotto wheels to help you win realistic amounts (such as 3 out 5 numbers, 4 out 6 numbers, etc) instead of getting that very unrealistic jackpot prize because it will literally cost thousands of tickets to get that type of wheel system.

If you want to hit the jackpot in a realistic way, I recommend you to join a lottery pool. The one I personally am in and I personally recommend is [www.LotteryPoolWinner.com](http://www.LotteryPoolWinner.com).

But as an individual lottery player, I recommend you to focus on hitting realistic amounts of money with an affordable price. And that is exactly what I teach you in this “Lottery Wheel System” course.

Again for each of the lottery games such as the pick 3, pick 4, pick 5, pick 6, multi-state pick 6, and the pick 7 lottery, you will be given a lottery wheel to generate close to:

- 5 lottery tickets
- 10 lottery tickets

- 20 lottery tickets

This will allow you to play the lottery in a responsible and fun way. In addition, you will have the most realistic chance to win a realistic amount of money.

To your success,

### Pick 3 Lottery Wheel:

The pick 3 is a very simple little game. You just have to get all three numbers right that range from 0 to 9.

If you read my "How to Win the Pick 3" course at [www.HowToWinThePick3.com](http://www.HowToWinThePick3.com), you will learn that there are 3 types of pick 3 lottery numbers.

The three types of pick 3 lottery numbers are single combos, double combos, and triple combos. Out of all the actual drawings, I have found that about 99% of them have been either single combos or double combos.

That means, there is only about a 1% chance that the drawing will come out to be a triple combo.

Here's an interesting chart to prove my point:

---

## Lottery Wheel System – Ace Lee

---

<b>Pick 3 Combo</b>	<b>Example:</b>	<b>% in Winning Drawings</b>
Single Combo	1-2-3 or 4-8-2	70%
Double Combo	1-1-2 or 4-0-4	29%
Triple Combo	1-1-1 or 2-2-2	1%

As you can see you want to focus on single and double combos. That is why I created a lottery wheel to help you get either a SINGLE COMBO or a DOUBLE COMBO. We are ignoring triple combos because it is most likely not going to occur anyways.

So let's talk about the wheels!

### **Single Combos:**

First, you will learn how to wheel numbers to get single combos for the pick 3 lottery. There will be two ways to wheel this.

First way is to wheel 4 numbers (generating 4 single combos) and the second way is to wheel 5 numbers (generating 10 single combos).

## **4 Combinations (Wheeling 4 Numbers)**

### *Basic Info:*

- Generates 4 single combos
- Wheeling 4 numbers
- Minimum win = You will get 3 out of 3 numbers right if all 3 winning numbers are drawn out of your total 4 numbers.

### *Instructions:*

- 1) Fill out 4 unique numbers next to "Enter 4 Wheel #'s".
- 2) Fill out the entire chart from combo #1 to #4.
- 3) Write down your 4 single combos under "Final Combo" & play all the tickets for best results.

<b>Enter 4 Wheel #'s →</b>					<b>Final Combo</b>
	↓	↓	↓	↓	↓
Combo #1	■				
Combo #2		■

## 10 Combinations (Wheeling 5 Numbers)

### *Basic Info:*

- Generates 10 single combos
- Wheeling 5 numbers
- Minimum win = You will get 3 out of 3 numbers right if all 3 winning numbers are drawn out of your total 5 numbers.

### *Instructions:*

- 1) Fill out 5 unique numbers next to "Enter 5 Wheel #'s".
- 2) Fill out the entire chart from combo #1 to #10.
- 3) Write down your 10 single combos under "Final Combo" & play all the tickets for best results.

### **Pick 3 Double Combos:**

Now, let's talk about how to wheel your numbers to generate pick 4 double combos. The benefit of double combos is that you can get MUCH more money if you win with it. That's because the lottery pays out more on the double combos than the single combos. The only slight downside is that double combos hit less often than single combos. Still, the double combos comprise around 29% of the entire drawings.

So let's talk about generating pick 3 double combos using my lottery wheel system.

### **Pick 3 Double Combos from wheeling 4 numbers:**

In this pick 3 wheel, I will show you how to wheel 4 numbers to create all the possible 12 double combos for the pick 3 lottery.

## Pick 4 Lottery Wheel

If you read my “How to Win Pick 4” course at [www.HowToWinPick4.com](http://www.HowToWinPick4.com), I mention that there are 5 types of pick 4 lottery numbers.

Out of those 5 types of numbers, I have noticed that 84% of all pick 4 lottery winning results tend to be single combos or double combos.

That is why my pick 4 lottery wheel strategy will only create just single and double combos.

Thus, we will ignore the triple combos, quad combos, and the double double combos.

Here’s an interesting chart to prove my point about the single and double combos being the best numbers to play for the pick 4 lottery.

<b>Pick 4 Combo</b>	<b>Example:</b>	<b>% in Winning Drawings</b>
Single Combo	1-2-3-4 or 4-8-2-1	50%
Double Combo	1-1-2-3 or 4-0-4-2	44%
Triple Combo	1-1-1-2 or 2-2-3-2	3%
Quad Combo	1-1-1-1 or 3-3-3-3	1%
Double Double Combo	1-1-2-2 or 3-3-9-9	2%

### **Pick 4 Single Combos:**

##### *Basic Info:*

- Generates 5 single combos
- Wheeling 5 numbers

### **Pick 4 Double Combos:**

Now, I am going to teach you how to wheel your numbers to generate pick 4 double combos.

Generally for best lottery wheel results, you never want to wheel more than HALF of the entire range of the lotto game.

So because the pick 4 has a range of 10 numbers (from 0 to 9), we are going to focus on double combos created by wheeling 5 numbers only.

### **Double Combos from wheeling 5 numbers:**

#### *Basic Info:*

- Generates 10 double combos
- Wheeling 5 unique numbers
- Minimum win = You will get 4 out of 4 numbers right if all 4 winning numbers are drawn out of your total 5 wheel numbers.

#### *Instructions:*

- 1) Enter 5 unique numbers next to "Enter 5 Wheel #'s" where each of the numbers will be individually translated to A, B, C, D, and E.
- 2) Write down your 10 double combos under "Final Combo" using the "Combo Codes".

## Pick 5 Lottery Wheel

Now, let's talk about wheeling to win in the pick 5 lottery. Again, there will be 3 types of ways to wheel this depending on how many tickets you want to buy. The three ways are to spend 5 tickets, 10 tickets, or 18 tickets.

### **5 Combinations (Wheeling 11 Numbers)**

*Basic Info:*

### Pick 7 Lottery Wheel

The pick 7 lottery is another popular lottery game that is available in some countries. I decided to put this wheel here because some people have requested me to show them how to win in the pick 7.

So if you live in a place where they offer pick 7, then here it is. If you live in a state or country that doesn't offer pick 7, then you can ignore this or just learn it for fun.

Again, I have compiled 3 ways to play the pick 7 lottery by spending around 5 tickets, 10 tickets, or 20 tickets. Let's get started!
